Let's play a little bit!

- ❑ Bum ( this games consists in picking a number and giving the name "bum" to his multiples).
- ❑ Memory game (we will start by picking a person in class and define the order of who should speak after who. That being done, the starter has to say a number, the next person has to repeat that same number and add a new one, and it goes on with the entire class until someone forgets the order.)
